

# Flat Helical Windings

## Key Benefits

- Custom shaping and connections
- Ideal for high current
- Good reproducibility

## Winding with several conductors

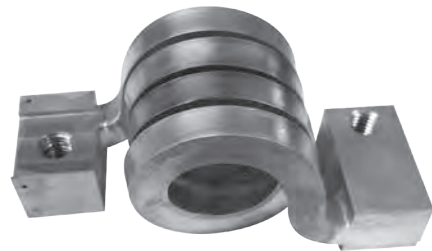

- Flat enamel copper wire with different thickness and width
- Copper conductors with rectangular section and without enamel
- Aluminium conductors with rectangular section and with or without enamel

## Examples

### Cylindrical

Enamel copper  
Section 4x2,5mm  
Diam 35mm, Ht 27mm without outputs

Copper without enamel  
Section 10x10 mm  
Diam 53mm, Ht 54mm without outputs

### Oval

Enamel copper  
Section 9 x 1,8 mm  
50 x 110 x 65 mm

### Glued with the magnetic core

Enamel copper  
Section 8 x 2,5 mm  
Diam. 40 Lg 95 mm
